ANNEX I – Instructions to Offerors

These instructions contain general guidelines and instructions on the preparation, clarification, and submission of Proposals.

A. INTRODUCTION

1. General

The purpose of this Request for Proposal (RFP) is to invite Sealed Proposals for professional services to be provided to the United Nations Educational, Scientific and Cultural Organization - UNESCO.

2. Eligible bidders

Bidders should not be associated, or have been associated in the past, directly or indirectly, with a firm or any of its affiliates which have been engaged by UNESCO to provide consulting services for the preparation of the Terms of Reference, and other documents to be used for the procurement of services to be purchased under this Request for Proposal.

This bid is open to all national and international suppliers who are legally constituted, can provide the requested services.

Bidders are ineligible if at the time of submission of the offer:

(a) The bidder is on the exclusion list published on the global portal for suppliers of the United Nations Organization, (http://www.ungm.org) due to fraudulent activities.
(b) The name of the bidder appears on the Consolidated United Nations Security Council Sanctions List which includes all individuals and entities subject to sanctions measures imposed by the Security Council.
(c) The bidder is excluded by the World Bank Group.

3. Fraud and corruption

UNESCO requires that bidders, contractors and their subcontractors adhere to the highest standard of moral and ethical conduct during the procurement and execution of UNESCO contracts and do not engage in corrupt, fraudulent, collusive, coercive or obstructive practices.

For the purpose of this provision such practices are collectively referred to as “fraud and corruption”:

• “Corrupt practice” is the offering, giving, receiving or soliciting, directly or indirectly, an undue advantage, in order that the person receiving the advantage, or a third person, act or refrain from acting in the exercise of their official duties, or abuse their real or supposed influence;
• “Fraudulent practice” is a knowing misrepresentation of the truth or concealment of a material fact aiming at misleading another party in view of obtaining a financial or other benefit or avoiding an obligation, or in view of having another party act to their detriment;
• “Collusive practice” means an arrangement between two or more parties designed to achieve an improper purpose, including influencing improperly the actions of another party;
• “Coercive practice” means impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party.
• “Obstructive practice” means acts intended to materially impede the exercise of UNESCO’s contractual rights of audit, investigation and access to information, including destruction,
falsification, alteration or concealment of evidence material to a UNESCO investigation into allegations of fraud and corruption.

- “Unethical practice” means conduct or behaviour that is contrary to Staff or Supplier codes of conduct, such as those relating to conflict of interest, gifts, hospitality, postemployment provisions, abuse of authority and harassment.

UNESCO expects that all suppliers who wish to do business with UNESCO will embrace the United Nations Supplier Code of Conduct

UN Agencies have adopted a zero tolerance policy on gifts and therefore, it is of overriding importance that UNESCO staff should not be placed in a position where their actions may constitute or could be reasonably perceived as reflecting favourable treatment of an individual or entity by accepting offers of gifts, hospitality or other similar favours. Vendors are therefore requested not to send or offer gifts or hospitality to UNESCO personnel.

UNESCO will:

- Reject a proposal to award a contract if it determines that a vendor recommended for award has engaged in fraud and corruption in competing for the contract in question.
- Cancel or terminate a contract if it determines that a vendor has engaged in fraud and corruption in competing for or in executing a UNESCO contract.
- Declare a vendor ineligible, either indefinitely or for a stated period of time, to become a UN registered vendor if it at any time determines that the vendor has engaged in fraud and corruption in competing for or in executing a UNESCO contract.

Any concern or evidence that corruption or fraud may have occurred or is occurring related to a UNESCO contract shall be forwarded to the Office of Internal Oversight. Please refer to how-to-report-fraud-corruption-or-abuse.

Evaluation of the price proposals (of all Offerors who have attained minimum 70% score in the technical evaluation) will be based on the weight scoring method as follows:

- Financial proposals are opened and list of prices is prepared, where the lowest price is ranked as the first one (receiving highest amount of points) and the most expensive as the last one (receiving the least amount of points).
- Lowest price is given maximum points (e.g. 300), for other prices the points are assigned based on the following formula: [Amount of points = lowest price/other price * total points obtainable for financial proposal]

An example:
- Offeror A – lowest price ranked as 1st in the amount of USD 10,000 = a
- Offeror B – second lowest price ranked as 2nd in the amount of USD 15,000 = b
  
  Points assigned to A = 300 & Points assigned to B = 200 (following formula: a/b * 300 i.e. 10,000/15,000 * 300 = 200 points)

Background and Justification:

Lack of access to education for girls is part of a broader landscape of gender inequality in Pakistan. Presently, 22.84 million out of school children with over 50% girls possess a serious challenge for the country. Massive drop out of girls during transition from primary to lower secondary education pushes the net enrolment ratio (adjusted) down to 45%. The survival rate of girls to grade VIII stands at 52%, which further goes down to 45% at grade X. A range of demand and supply side issues are responsible for inadequate access of girls to lower secondary education, which merits attention.

In order to address the issue of low girls’ transition from primary to lower secondary education, UNESCO Islamabad Office designed a programme, “Girls’ Lower Secondary Education Programme (GLSEP) in Pakistan” with funding support from Norway. The programme sets a stage for strategic investment in education to improve girls’ access to lower secondary/ middle level education with better learning opportunities through a holistic approach to quality education. Spanning over a period of three year, the programme is implemented in district Kohistan¹ and Swat in Khyber Pakhtunkhwa² to achieve the following objectives:

a. Create a demand for continuation of girls’ education beyond primary to lower secondary level through working with local communities in the target districts.

b. Improve access to and retention of adolescent girls in lower secondary education through improving school physical environment and providing support to girls and teachers in the target districts.

c. Provide optimum learning opportunities to learners through a focused approach to teacher training, pedagogical contents and classroom strategies in the target districts.

d. Build capacity of education officials at provincial and district levels through a focused approach to professional development that creates an enabling environment for girls’ lower secondary education in target districts.

UNESCO undertook a baseline study in the two districts to assess current state of girls’ lower secondary education in 46 government girls middle schools in Swat and Indus Kohistan districts. The study reveals alarming situation of girls’ access to lower secondary education. More than 53% girls are dropped out during transition from primary to lower secondary schools in Swat while only 9% of them barely reaches to lower secondary schools in Kohistan. On average, 88% girls in Kohistan and 56% girls in Swat are out of schools at lower secondary level. About 57% of union councils of the target districts have only one school in the vicinity. Girls walk through average 5 kilometre minutes daily to reach their school in difficult mountainous terrain. Distance between schools and communities, lack of communication infrastructure, community stereotypes, lack of teachers, and school missing facilities are some of the key reasons for low access to lower secondary education in the target districts.

Objective:

The objective of this Request for Proposal (RFP) is to hire services of a civil society organization(s) having strong local presence in the target districts to undertake activities contributing towards the achievement of programme objectives a, b and c mentioned above in the following areas:
